

Introducing LYNX Touch

Reliability Meets Innovation

A Dynamic New Offering from the Leader in Touchscreen Technology!

Get in touch with a great opportunity with Honeywell's dynamic new LYNX Touch! LYNX, the industry's most popular and reliable self-contained control—with over three million installations worldwide—now features a bright, full color touchscreen that makes home security easier than ever. LYNX Touch helps you close more business by offering today's consumers what they really want...information and control at their fingertips.

Icons and menu-driven prompts make operation and programming a snap, and you'll spend less time training both end-users and installers. LYNX Touch is great for new systems and upgrades—letting you provide next-generation interactive security as well as RMR-generating services like Total Connect and two-way voice over GSM. No other system can touch it!

Easy to Use, Easy to Sell and Easy to Install!

Brilliant New Touchscreen

- Vivid, full color graphic touchscreen has tremendous end-user appeal—customers will want to use it all the time to protect their family, home and possessions
- Easiest interface for end-users yet—intuitive prompts make operation simple
- Icons and words are large, clear and easy to see—great for family members of all ages
- Easy programming for installers
- Weather, traffic and news alerts*

Increased RMR and Lower Attrition

- Two-way voice over GSM radio provides more RMR opportunities when installed in mobile phone-only and VoIP households
- Total Connect 2.0 Remote Services compatible with iPhone®, iPad™, BlackBerry®, Android™ and more

Lower Installation, Programming and Maintenance Costs

- Simple programming interface:
 - Reduces mistakes for new and experienced installers
 - Reduces installation costs and installer training time
 - Reduces end-user training time and costly, end-user created false alarms
- Voice prompt zone programming
- Keystroke radio registration/signal strength display
- Flash micro for remote code update
- One on-board hardwired zone
- Internal RJB1X phone module (optional)
- Plug-in AC cord and pre-installed battery

Future-Proof Options

- Automatic thermostat setback and basic lighting control via 5800ZBRIDGE
- 802.11 Wi-Fi eliminates running wires for Internet AlarmNet communications—saving you money*
- Z-Wave® enhanced thermostat, lighting and lock control*
- Information dashboard with downloadable weather, stock report feeds and more*

CONNECT TO OPPORTUNITY!

Increase your RMR, close more business and reduce attrition when combining LYNX Plus with Total Connect 2.0. Your customers can access and operate their systems remotely, view live video and stay connected to their homes and families on the same mobile devices they use every day.

Your customers can:

- Know when their children arrive home from school or if they haven't arrived home by a certain time
- Set up and manage their own accounts—making life easier for them and for you!
- Control their security systems remotely via iPhone, iPad, Android, BlackBerry or other compatible mobile device. Free apps available**
- Receive e-mail alerts if a protected asset is moved, flood or extreme temperature is detected or movement is sensed in a specified indoor or outdoor area
- View live video on up to six cameras at a time or have video clips or pictures e-mailed to them upon an event
- Take advantage of energy management and lighting control options
- Access up to 100 locations with one login

For more information, please visit www.mytotalconnect.com

**Free apps available for Apple iPhone, iPad and iPod touch, BlackBerry and Android devices. iPhone, iPad and iPod touch apps available in Apple's iTunes App Store. Android app available at Android Market. Total Connect subscribers can download the BlackBerry app by logging into their accounts.
